Section 4: Your comments on a suggested mineral site (please use a separate box for each site)

Site Reference: **MSAD AS 02**

Do you:

Agree Making observation

Site Name: **Cannon Hill Plantation**

Disagree

Comments:

I object to the proposals for sand extraction on this site and do not believe that the site is appropriate because:

- * **There would be considerable noise disturbance to surrounding residential areas which are very close by**
- * **Use of the site would cause the loss of an essential local public amenity space which sees a foot-fall of over 100,000 per annum, inevitably causing additional use of nearby protected heathland**
- * **Important scheduled monuments on the site would be affected**
- * **No account is being made of the additional heavy goods traffic the proposals would generate.**
